

7950 Dublin Blvd., Suite 103B  
Dublin, CA 94568

### **Services Offered**

Upper Cervical Specific Chiropractic Care focuses on removing nerve irritation to restore communication between the brain and the body. Restoring function at the level of the brainstem and upper cervical spine (the control center of the body) is essential so that the body may heal itself and have optimal vitality. With the nervous system functioning at 100% the body is able to heal itself from even the most complex of ailments.

The Specific Chiropractic Center utilizes state of the art technology to provide the highest level of care possible including Digital Laser-Aligned Radiography and Computed Infrared Thermography to objectively monitor the presence and removal of irritation to the central nervous system.

### **Type of Clients Helped and Their needs**

Specific Chiropractic care is great for anyone, from newborns to the elderly, providing a resource of hope for patients with complex cases, patients of medical failures, and patients seeking to optimize their health and future.

Due to the specialized attention to the nervous system even the most difficult of cases can find hope. Conditions that have responded to Specific Chiropractic include Asthma, Infantile Colic, Chronic Fatigue, Acid Reflux, Migraines, High Blood Pressure, Vertigo, Diabetes, Chronic Ear Infections, Numbness, Fibromyalgia, Multiple Sclerosis, Allergies, Arthritis, Neck pain, Back pain, to name a few.

### **How Can I Help Clients Reach Their Goals**

Specific Chiropractic helps people live a healthier and fuller life so that they may reach their highest health potential.

Our goals include helping people heal from chronic ailments, become less dependent on drugs and surgery, improving the strength of the immune system and preventing future health complications.

We have found that the most effective way to conquer difficult health issues that have not responded to other types of treatment is to restore the function of the nervous system which can only be done with specialized testing and precision corrections to the brainstem region.

### **Why Choose Me Over a Competitor**

It is estimated that there are only 1,200 chiropractors in the world who focus their expertise in upper cervical specific chiropractic care.

The Specific Chiropractic Center is dedicated to providing the Bay Area with the most advanced technology, highly trained doctors and specific chiropractic care possible by objectively monitoring, measuring and improving the function of the nervous system throughout the body for health restoration.

We go beyond symptom relief to find the cause of the problem and correct it which gives us great results with difficult cases.

Dr. Paige owns and runs The Specific Chiropractic Center in Dublin and now there are additional locations in Oakland, Daly City, Chico, Livermore, Sacramento, Salt Lake City and Maine.
