

Top 10 Website Tools to Convert Website Traffic

Does your site have these Tools?

Convert Your Website Traffic

www.InternetMarketingPowerTeam.com presents:

Are you ready for a very revealing workshop about the internet and how to successfully make sales? You will want to cancel any calendar conflicts to be here for this. We are going to have the best workshop you will have ever attended for anyone with a website. We will cover 2 huge topics, including:

"How To Have A Website That Converts 10%+ Of All it's Traffic - Top Ten Tools Every Website Needs."

"How To Find All The Keywords You've Been Missing For Your Business - I'll Triple Your Keywords In 30 minutes."

Think you have the perfect website?

I will have \$100 cash for anyone that has these top 10 tools already on their website and can show us in the workshop. Which website tools are you missing? How many prospects hit your website and bounce away? Want a ton of solutions? Come get the list.

Think you know all of your keywords?

What if I showed you that you don't have 1/3rd of the keywords you should have? If you are doing PPC (Pay per click), you are throwing all of your money away. The best keywords to use to attract more prospects to your site, you don't even know them, let alone use them. You see, our prospects can't find us because we aren't focusing on the right keywords or we are leaving out the most important ones. Let's fix that. See you at your workshop.

Be on time, you'll regret not coming early as you'll miss out on networking with other business owners, and seating is limited at this meeting place.

Handouts are just \$10 to cover the printing cost.

Northern California Bible College - 4439 Stoneridge Drive #230 Pleasanton CA 94588
Wednesday, August 25th, 2010 7pm.-8:30 pm.
